Summary:

I have more than 3 years of experience working with hosts on such platforms as: ESXI, Hyper-V, Proxmox; about 1.5 years of experience deploying web servers on Apache24, Ngnix, ISS, and their support. Introduced Jira CRM system to provide user support from developers. Launched a corporate mail, IP telephony. Physical servers of the company were transferred to virtual ones. Configured the monitoring system. Debugged the servers. Worked with servers as Supermicro, Dell, IBM, Cloud QNAP.

In my spare time, I create single-page websites according to layouts. Also, I constantly improve my skills in website development.

I have an understanding and basic experience working with such assemblers as Gulp, Webpack, Grunt, React.

Have experience with Adobe Photoshop, Figma.

Skills:

- HTML5/CSS3, SCSS (Responsive, Adaptive)
- JavaScript, Bootsrap, JQuery (Plagins)
- Adobe Photoshop, Figma
- Version Control (Git)
- Virtualizations (VMware Workstation, Hyper-V, Proxmox, ESXI)
- Active network equipment (MikroTik, Ubiquiti, Fortigate, HP)
- Windows servers
- Linux systems, servers
- Web Servers (Apache24, Nginx, IIS)
- Database (MS SQL, MySQL, PostgreSQL)
- CRM (Jira, Mantis, Bitrix24, 1C)
- Hardware (Supermicro, Dell, IBM, QNAP)

Work Experience:

(2018 – today) **System Administrator, GROUP OF COMPANIES "FACTOR"**

- Server management, workstations, routers, switches and existing network applications.
- Monitoring and daily system checks.
- Diagnostics and resolving various technical issues related to hardware and software.
- Support for all network systems LAN, WAN.
- Ensuring network security and integrity.

- Tenders and contracts with equipment suppliers.

Education:

KHAI – (2007 – 2011)
 Bachelor – Engineer Constructor Aircrafts and Helicopters.
KHAI – (2011 – 2013)
 Specialist – Aircraft Testing and Certification.
Telesens Academy – (2015)
 QA Core (manual testing WEB, mobile, desktop, UI, checklist, test cases, bug-report)
NT School – Front-End developer (2018)
 HTML5/CSS3/SCSS/Flex-box/Grid CSS.
 Made single-page websites using PSD layouts.
A-Level – Full Stack (2018 – 2019)
 HTML5/CSS3/Flex-Box/JS/Git.
 Made single-page websites using PSD layouts and uploaded to a server.

Additional Information:

Currently, I am working as a System Administrator, but I really want to change my profession and start a career as a Front-End Developer. In my spare time, I improve my skills in development, creating single-page websites according to the layouts. Study React. Connect to pages bootstrap, jquery libraries. Watching JS lessons, learning English.

- Quickly learning
- Good-faith task fulfillment
- Initiative
- Executive
- Punctual
- Hard-working
- Responsible
- There is a great desire to learn new things and develop

Hobby: Picking mushrooms, kayaking, riding bicycles, driving and tuning a car.
